Lumber & Mouldings

Solid softwood and hardwood mouldings and lumber are manufactured in random lengths. As lumber is a product of nature, variation in texture, color and grain patterns are natural & to be expected. Due to the natural growth differences in species, some are limited in length of boards available. While most paint grade lumber is available in lengths as long as 16', many hardwoods are considered long in 10-12' lengths.

Random Length Orders

Random length orders may include a maximum of 15% short lengths from 3' to 6' and 85% in lengths 7' to 16'

Specified length Orders

Specified lengths are subject to stock availability and may be subject to a 25% up charge in price. When specifying, please use the actual sizes needed allowing our warehouse staff to combine lengths and minimize footage overages.

Special order products are subject to the manufacturer's terms and guarantee and may or may not be returnable.
